

Notice of Public Community Meeting For a Project Proposal Under the Large Renewable Procurement

The proponent identified below is proposing to submit a proposal to the Independent Electricity System Operator (IESO) to design, build, and operate a Large Renewable Project for the generation of electricity under the IESO's Large Renewable Procurement (LRP).

The LRP is a competitive process for procuring large renewable energy projects generally larger than 500 kilowatts. At the conclusion of the LRP, the IESO may award contracts for successful projects up to the specified procurement targets for each renewable fuel: 300 megawatts (MW) for wind, 140 MW for solar, 75 MW for waterpower, and 50 MW for bioenergy.

This notice is being distributed to notify members of the public of a public community meeting that has been scheduled to discuss the Large Renewable Project proposal. Information regarding the proponent, the Large Renewable Project proposal, and the meeting details are described below.

This public community meeting is being held as part of the early community engagement requirements of the LRP. The public community meeting will present details about the Large Renewable Project and its proposed connection line. Representatives of the proponent will be available to discuss the Large Renewable Project and the overall LRP process. Should this Large Renewable Project be awarded a contract, the Large Renewable Project would need to obtain all required permits and approvals and conduct any further required community engagement activities.

Further details regarding the LRP are available at www.ieso.ca/lrp.

Proponent and the Large Renewable Project proposal

Proponent:	Corunna Limited Partnership
Qualified Applicant from the LRP Request for Qualifications stage associated with the proponent:	BluEarth Renewables Inc.
Name of the Large Renewable Project proposal:	Corunna Solar Project
Renewable fuel of the Large Renewable Project:	Non-rooftop Solar
Proposed capacity of the Large Renewable Project (MW):	13 MW
Proposed connection point of the Large Renewable Project:	Scott Rd. north of La Salle Line

Proposed location of the Large Renewable Project and proposed connection line

The Large Renewable Project Site (the "Site") will be located in the Township of St. Clair. The proposed Site, consisting of solar panel arrays and associated equipment, will be on private property owned by Pembina Pipeline Corporation. The Site is proposed to be located on both sides of Highway 40 between La Salle Line and Petrolia Line. The Connection Line is proposed to be located adjacent to portions of La Salle Line and Scott Rd. Please refer to accompanying map.

NOTE: The Project information is the same as what was presented at the July 15, 2015 meeting.

Public community meeting information

Location: Corunna Legion, 350 Albert Street, Corunna, ON N0N 1G0
Date: August 24, 2015 from 7:30 pm to 9:00 pm

A meeting will also be held for the Aamijwnaang First Nation

Location: Aamijwnaang First Nation Community Centre, 1972 Virgil Avenue, Sarnia, ON N7T 7Y9
Date: August 24, 2015 from 5:00 pm to 7:00 pm
