

Notice of Public Community Meeting

For a Project Proposal Under the Large Renewable Procurement

The proponent identified below is proposing to submit a proposal to the Independent Electricity System Operator (IESO) to design, build, and operate a Large Renewable Project for the generation of electricity under the IESO's Large Renewable Procurement (LRP).

The LRP is a competitive process for procuring large renewable energy projects generally larger than 500 kilowatts. At the conclusion of the LRP, the IESO may award contracts for successful projects up to the specified procurement targets for each renewable fuel: 300 megawatts (MW) for wind, 140 MW for solar, 75 MW for waterpower, and 50 MW for bioenergy.

This notice is being distributed to notify members of the public of a public community meeting that has been scheduled to discuss the Large Renewable Project proposal. Information regarding the proponent, the Large Renewable Project proposal, and the meeting details are described below.

This public community meeting is being held as part of the early community engagement requirements of the LRP. The public community meeting will present details about the Large Renewable Project and its proposed connection line. Representatives of the proponent will be available to discuss the Large Renewable Project and the overall LRP process. Should this Large Renewable Project be awarded a contract, the Large Renewable Project would need to obtain all required permits and approvals and conduct any further required community engagement activities.

Further details regarding the LRP are available at www.ieso.ca/lrp.

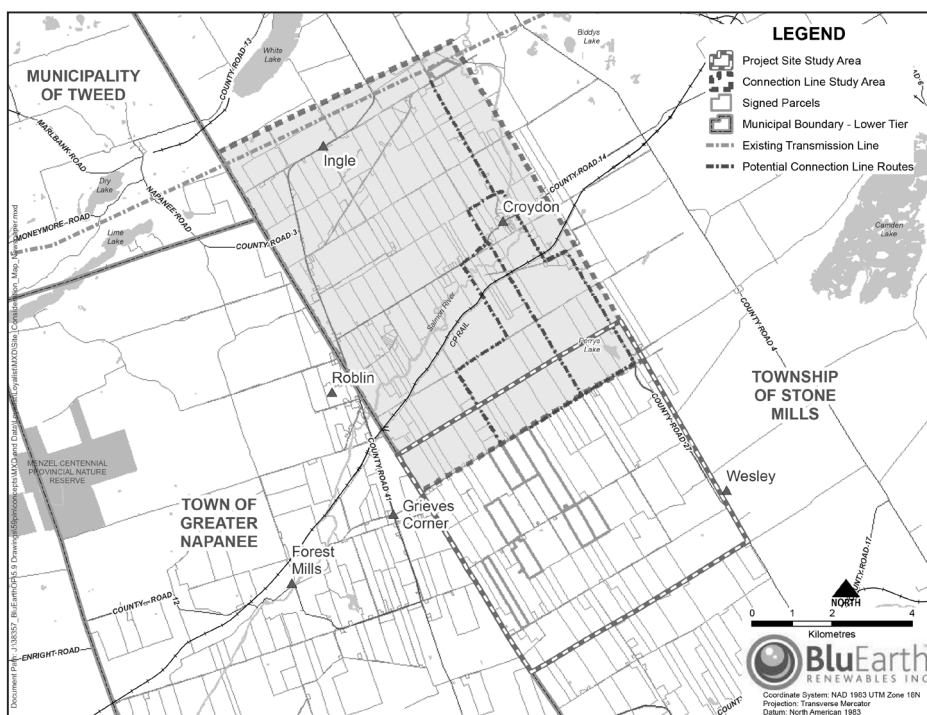

Proponent and the Large Renewable Project proposal

Proponent:	Loyalist Solar LP
Qualified Applicant from the LRP Request for Qualifications stage associated with the proponent:	BluEarth Renewables Inc.
Name of the Large Renewable Project proposal:	Loyalist Solar Project
Renewable fuel of the Large Renewable Project:	Non-rooftop Solar
Proposed capacity of the Large Renewable Project (MW):	up to 54 MW
Proposed connection point of the Large Renewable Project:	Along Hydro One Networks Inc. H23B transmission line north of Ingle. Please see map.

Proposed location of the Large Renewable Project and proposed connection line

The Project is proposed to be located in the Township of Stone Mills. The Project Site will be located on leased lands between County Rd 41 to the west, County Rd 27 to the east, and the Salmon River to the north. A Connection Line will be generally located between Centreville Rd, County Rd 41, east of Miller Rd and north of Frizzell Rd and Youngs Rd and connect to the existing 230 kV transmission line located north of Ingle. The final Connection Line location has not been determined. Some potential routes are shown on the accompanying figure.

NOTE: The Project information is the same as what was presented at the July 8, 2015 meeting.

Public community meeting information

Location: Newburgh Community Hall
2 Factory Street, Newburgh, K0K 2S0
Date: August 24, 2015 from 5:00 pm - 7:00 pm
